

GENERAL DYNAMICS
Mission Systems

Kyle Stang
Final Intern Presentation

August 3rd, 2026

Background Information

- Kyle Stang
 - School: UMass Dartmouth
 - Major: Electrical & Computer Engineering
 - Expected Graduation Date: May 2027
- Work Facility: Taunton, MA
- Manager: David Barboza
- Mentor(s): David Barboza, Richard Morani, Bob Nadeau, Matt King, Alex Wengryn
- Department: Hammerhead I&T

Tasking

- Aid Hammerhead's EE related development
 - Theoretical BCD Expansion design
 - DPI cable extension for optimal FAT
 - Inputting NPRs into Windchill for new PCB designs
 - Drawing analysis for diagnosing board/cable shortages
 - Regular board shortage testing

Measures of Success & Results

- Gained hands on experience in EE product and systems design
- Aided design of two cables necessary for optimized HH testing
- Improved State Machine diagram for HH

Community Engagement

- Intern Program Events
 - Interprise Wide Intern Events (Meeting former interns, learning about ELP/MLP, Mapping my career journey)
- Other
 - All Hands Meetings
 - Group Lunches
 - Sharing news on LinkedIn

My Internship Expectations

- What did you expect from this internship?
 - A new environment to provide a new look at industry work
 - An opportunity to apply my school knowledge
 - A transition from government funded programs to private sector work
- Were your expectations met?
 - Yes

What I Did To Meet My Expectations

- What did you do and/or what could you have done to meet both your expectations, and the expectations your manager set for you?
 - Ask for newer and more challenging projects to work on
 - Diversified the type of work I was used to with the Systems team
- What advice were you provided that you found helpful?
 - Walk around, ask for help & watch what other people are doing

Most Exciting Thing I Did This Summer Outside of Work...

Camping:

Trip to Portugal (After work):

Questions???
